

Sporting Excellence

AESE enables talented riders to get the support they need to succeed.

AESE is tailored around the equestrian Olympic disciplines. Athletes are coached by world-class trainers developing a range of skills including career planning, physical health, performance psychology, communication and managing the media.

This Level 3 advanced apprenticeship is for those based in England, and is equivalent to A-Level standard.

AESE is now an apprenticeship standard for 2024, it is:

- Employer led based on industry requirements
- Flexible in it's delivery approach
- Focused on developing skills, knowledge and behaviours
- Supported by coaching and teaching
- Tailored to chosen disciplines
- Measured through a robust end point assessment process

Developing core knowledge, skills & behaviours. AESE modules cover:

Tactical and technical skills
Physical performance
Injury risk and management
Safe practice
Anti-doping
Nutritional performance
Effective communications
Lifestyle and personal development
Career and self-development
Psychological and emotional performance

AESE also develops athletes in:

Professionalism
Teamwork
Time management
Respect
Goal setting
Self-reflection
Inclusive behaviours
Work ethic

End Point Assessment (EPA)

Once the learner completes their learning towards the required modules, and the employer, learner, and Trainer Coach agree they are ready for their exam, they enter a gateway period. This is where all teaching and learning stops, and the learner goes through the EPA process.

Knowledge test

Consisting of forty multiple choice questions, incorporating scenario based questions.

Observation

A robust practical observation with questions lasting approximately two and a half hours.

Interview

A professional interview underpinned by a portfolio of evidence.

If you have any questions about AESE or would like to know more about our work in equine, animal care or business, please get in touch with our AESE Enrolment Advisor.
